

How to play

Start at the black dot at the top (START) and draw a path with your pencil to the star at the bottom (FINISH).

You can't cross the walls. If you reach a dead end, go back and try another way.

The mazes get bigger and harder as you go:

- 1–25: Easy
- 26–50: Medium
- 51–75: Hard
- 76–100: Super hard

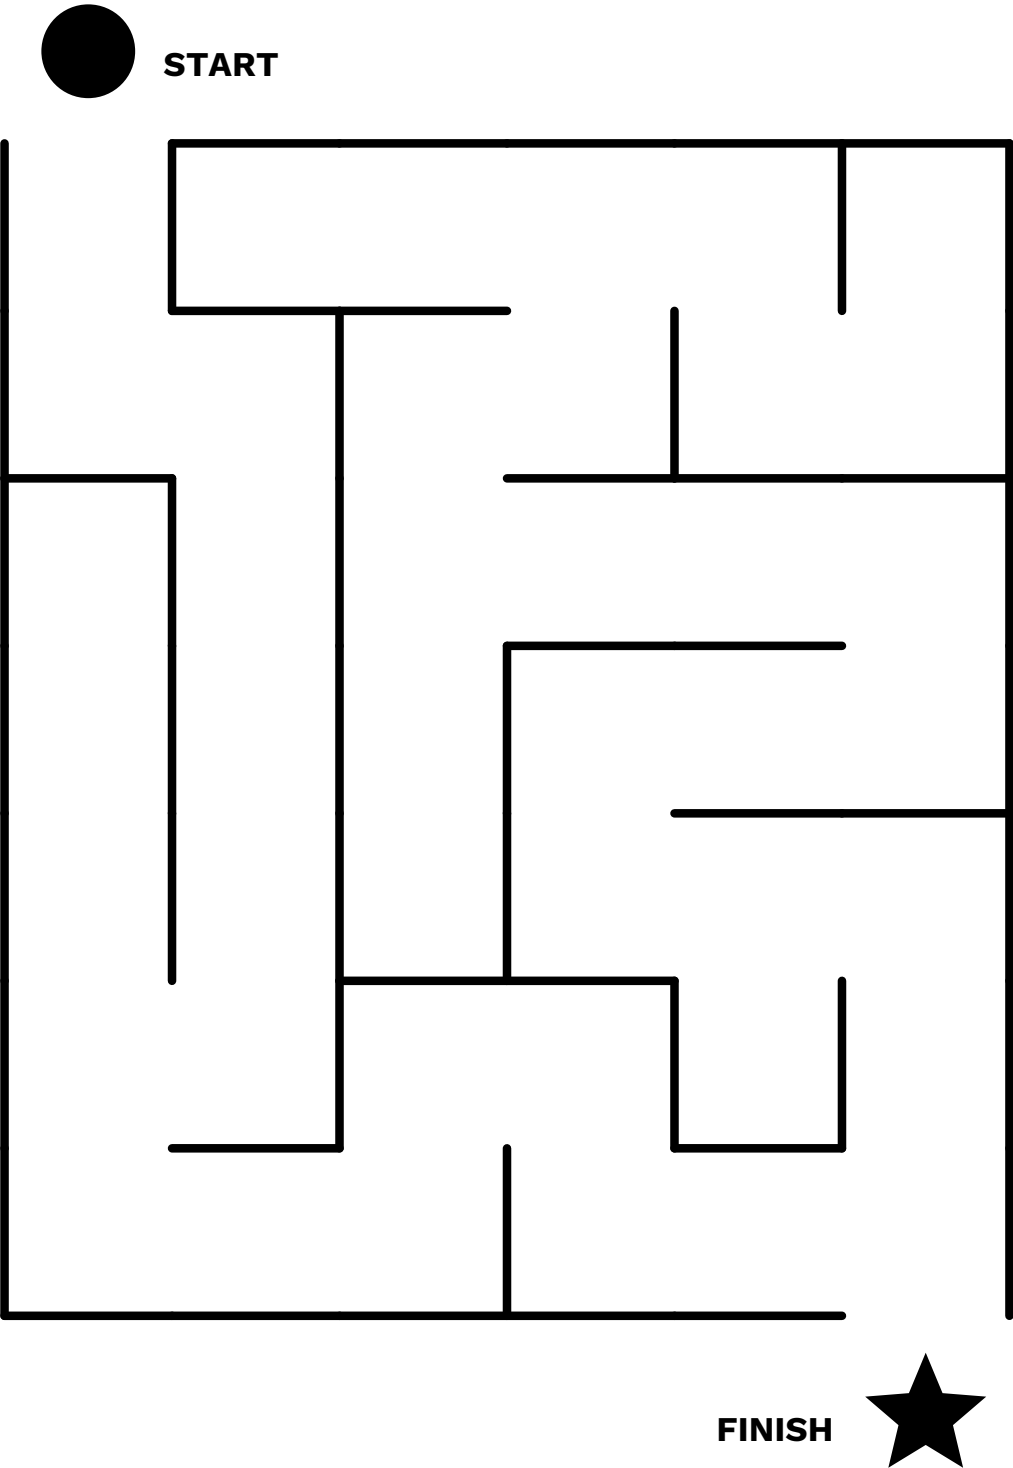

Solutions are at the back of the book.

Good luck, explorer!
